# Gallery on Wheels

In 1984 this innovative outreach program was created for elementary grade classrooms in Minot and the surrounding rural areas. Its purpose is to develop an awareness and appreciation for the artists in our society and to expose students to new art materials and techniques.

Once a year presenters take a selection of artworks from the Museum's permanent collection to the students. In addition, some presenters share their own artwork with their audience. An informal discussion encourages the students to explore the various art forms. A related hands-on art activity concludes each session.
